EXPERIENCE

PAYMOB , Cairo

Jan 2021 - PRESENT — **Frontend Team Lead |** Full Time

- As a frontend team lead at Paymob, I lead a team of talented software engineers who build and maintain high-quality web applications for the fintech industry.

- Refactor the react dashboard to render each component from JSON configs in a fully dynamic way, update react versions and start using REDUX.

- The second round of Refactor the react dashboard by updating the main structure and using NEXT.JS to supply a much faster and smooth user experience, and an easy way to enhance the code structure in the future.

- Handle the hiring process by interviewing possible candidates.

- Code review with team colleagues.

Jan 2019 - Jan 2021 — **Senior Frontend Developer |** Full Time

- Rebuild a new version from the dashboard using react.

- Build a dynamic webview that supplies bill payment services, donations, etc.. This webview is used in more than 10 bank's wallets in egypt.

- Build a desktop app to handle the communications between webview and NFC reader, so we can supply payment through NFC cards inside closed systems like AUC.

Feb 2018 - Jan 2019 — **Frontend Developer |** Full Time

Working on Paymob's merchant dashboard (the old version) that was built with native Javascript and JQuery.

Tasawk , Mansoura

Sept 2017 - Feb 2018 — **Frontend Developer |** Full Time

Work on converting PSD to fully responsive design then use Javascript and JQuery to handle the functionality.
